

You are in Bezalel's design and construction team. A team member came up with an initial sketch, but he has difficulty conceptualizing it the way God wanted.

Can you help him?

- Organise team members to work together on one or two designs.
- Correct or add to the initial sketch. Use the audio Bible or printed Bible text. Reference other design suggestions from your teammates (or others, e.g. google images)
- Show the changes to the other teams. Explain why these changes are necessary. Use the images you have found. Or you can show them the video presentation (Tabernacle in Biblical Hebrew, Link below). *What is this thing used for?*
- If you finish your part early, research the garments for the priest (at the end)

You have ten minutes before Boss Bezalel arrives. You can begin now.
